As a customer of the Horseshoe Ranch Water Company I support a moratorium on any new hook up. In fact, I feel it is essential that the moratorium takes place as soon as possible. Any new hook ups would only add to what is already a strained and inadequate water system.

The water company has serious problems with supplying the customers that are already dependant upon it. We often suffer with poor pressure, and it is not unusual to go without water for hours, and sometimes even days. Obviously, adding any new hook-ups could cause disastrous results.
